

SILVENT PSK 18

Item number: PSK18049276, PSK18049282

Adjustable ball joints for adjusting the air cone. These joints make it possible to readjust the blowing angle without affecting fixed equipment. Correct setting of the blowing angle means both lower noise levels and increased efficiency. The blowing angle adjustability is 30° from the center line. Available in 4 different sizes. Seals of Viton.
Material: stainless steel.
